

**Carraro Group**  
**Interim Financial**  
**Report**  
to 30 June 2010

---

**DISCLAIMER**

*This document contains forward-looking statements, in particular in the section "Business outlook for the current year", in relation to future events and the operating, economic and financial results of the Carraro Group. These forecasts have by their very nature a component of risk and uncertainty, as they depend on the occurrence of future events and developments. The actual results may differ, even significantly, from those announced in relation to a multiplicity of factors.*

**CARRARO S.p.A.**

Head Office in 35011 Campodarsego (PD) at Via Olmo no. 37

Share Capital Euro 23,914,696, fully paid-up

Tax Code, VAT and Registration Number

In the Padua Companies Register 00202040283 – R.E.A. No. 84033

**GENERAL INFORMATION**

**BOARD OF DIRECTORS**

In office until approval of the 2011 Financial Statements (Appointed, General Meeting 23.04.2009 - Powers conferred, Board resolutions 07.05.2009 and 04.08.2009)

**MARIO CARRARO**

Chairman

## **General data and comments**

The first six months of 2010 recorded a generalised return of the main markets, Agriculture and Industry, whilst the performance posted for the renewable energies sector, and photovoltaic in particular, stand out as having recorded truly exceptional results with almost exponential growth.

There was, then, an encouraging increase in sales volumes, above the budget's expectations, in every Business Unit, with the sole exception of Agritalia (Vehicles BU), which in the first months of the year had to deal with some problems - now being resolved - related to producing new ranges of tractors.

Total turnover for the half-year reached 304.6 million euros, up 19.2 % on the same period for last year and as compared with that forecast in the quarterly report and budget figures and those of the three-year plan.

In a context that has seen a significant increase in volumes, the Group has suffered problems with provisions of materials as a consequence of the restructuring and downsizing of production capacity carried out in 2009 by Italian and European suppliers. The major drop in demand seen in 2009 meant that Asian-based suppliers, another major source of provisions for the Group, allocated their capacity to the domestic market.

Consequently, a series of actions have been started for the recovery and alternative channels of supply, in a bid to solve the problems by the second half of the year.

The period also saw some tension on prices of raw materials and this was dealt with by taking action to redefine sales lists with all customers.

All this has resulted in economic inefficiencies during the half-year period, which have partly eliminated the benefit deriving from the greater sales volumes.

The first part of the year in any case was confirmed as basically in line with the forecasts of the three-year plan.

With reference to the redesign of the industrial footprint and corporate rationalisation, the transfer of production to BCC (Best Cost Countries) continued, along with the development of a series of actions supporting the BU Components (Gear World): These included the entrance of Friulia SpA (financial company of the Regional Friuli Venezia Giulia) into the capital of SIAP and the sale of the subsidiary STM, no longer considered to be strategic, involved in forging.

With reference to the economic-equity results, as already shown in the analysis of the total data for the first quarter, these are distinctly improved on the first quarter of last year. In addition to the stated growth of turnover, EBITDA reached a level of 14.2 million euros, whereas it had been negative for 2.2 million euros as of 30 June 2009. EBIT, although remaining negative for 1.9 million euros, showed a distinct improvement on the negative result of 18 million euros posted for the same period last year. We should also mention the return to net profits for the individual month of June 2010.

The net financial position, negative for 279.3 million euros as of 30 June 2010, is in line with expectations. Net of non-recurring items, the purchase of the minority share in Elettronica Santerno for 19 million euros and re-absorption of the 'suppliers manoeuvre' for a value of 24 million euros, the half-year period shows a limited increase in working capital as compared with the growth in volumes.

**ECONOMIC AND EQUITY DATA****Turnover**

In the first half of 2010, the Group's turnover came to 304.648 million euro, up by 19.2 % from the figure recorded in the first half of 2009, when it was 255.594 million euro.

The following table breaks turnover down by market segment:  
(amounts in €/000)

## **EBITDA and EBIT**

### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>% of turnover</b>	<b>30.06.2009</b>	<b>% of turnover</b>	<b>Diff.%</b>
<b>EBITDA (1)</b>	14,176 4.7		-2,228	-0.9	n.r.
<b>EBIT (2)</b>	-1,906 -0.6		-18,048	-7.1	+89.4

(1) understood as the sum of operating profit/loss, amortization, depreciation and impairment of fixed assets

(2) understood as operating profit/loss in the income statement

The restructuring and reorganisation which began in 2009 and have consolidated during 2010, along with higher sales volumes, gave a further notable push towards profitability improvement.

EBITDA came to 14.176 million euro against the negative value of 2.228 million euro in the first half of 2009, moving from -0.9% to 4.7% of turnover.

EBIT, although negative by 1.906 million euro (-0.6% of turnover), it is clearly improving compared with the first half of 2009, which posted a negative value of 18.048 million euro (-7.1% of turnover).

## **Financial expenses**

### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>% of turnover</b>	<b>30.06.2009</b>	<b>% of turnover</b>	<b>Diff.%</b>
<b>Financial expenses</b>	4,911 1.6		6,471	2.5	-24.11

Although the average net financial position (indebtedness) for the period was more than in the previous year, owing to the lower cost of money, financial expenses fell to 4.911 million euro, 1.6% of turnover, a decrease of 24.11% compared with 6.471 million euro (2.5% of turnover) in the first half of 2009. This improvement should continue to be seen in the second half of the year.

## **Exchange Differences**

### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>% of turnover</b>	<b>30.06.2009</b>	<b>% of turnover</b>	<b>Diff.%</b>
<b>Exchange differences</b>	1,578 0.5		1,654	0.6	4.59

Exchange differences as at 30 June 2010 are positive 1.578 million euro (positive 1.654 euro as at 30.06.09).

### **Net profit/(loss)**

#### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>% of turnover</b>	<b>30.06.2009</b>	<b>% of turnover</b>	<b>Diff.%</b>
<b>Net profit/(loss)</b>	-10,272	-3.4	-14,600	-5.7	+29.6

The first half of 2010 closed with a loss of 10.272 million euros (-3.4% on turnover) against the loss of 14.600 million euros (-5.7% on turnover) for the first half 2009. For a correct comparison of the net result for the half-year period as compared with the corresponding value as of 30 June 2009, we should, however, mention that, on the one hand, there is an improvement in the results of some companies, resulting in an increase of the current tax burden as compared with the previous period, whilst on the other, we have not presently considered it appropriate to increase the prepaid tax asset in relation to the period losses that can be carried forward. It therefore follows that as of 30 June 2010, we have current tax liabilities for 6.290 million euros, against net tax assets (current and deferred) as of 30 June 2009 for 5.197 million euros.

### **Amortization, depreciation and impairment of assets**

#### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>% of turnover</b>	<b>30.06.2009</b>	<b>% of turnover</b>	<b>Diff.%</b>
<b>Amortization, depreciation and impairment</b>	16,082	5.3	15,820	6.2	+1.5

### **Investments**

#### **Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>30.06.2009</b>
<b>Investments</b>	9,396	16,865

Investments of 9.396 million euro, drastically reduced compared with 16.865 million euro in the first half of 2009, were allocated to the transfer of manufacturing operations from Europe to India and China and to the technological updating of machines and plants.

### **Research and Development**

The Group continued to confirm their desire to invest in constant technological innovation this year too. Research and Development expenses for the semester amounted to 7.256 million euro (2.4% of turnover) compared with 6.322 million euro on 30 June 2009 (2.5% of turnover).

## **Net financial position**

**Figures at 30.06.10 (amounts in €/000)**

	<b>30.06.2010</b>	<b>31.12.2009</b>	<b>009</b>	<b>30.06.2009</b>
<b>Net financial position*</b>	279,299	241,057		240,542
<b>Gearing</b>	2.82	2.49		1.89

\* understood as the sum of amounts payable to banks, short and medium/long-term bonds and financing, net of liquid assets, negotiable securities and financial receivables.

The net financial position showed debts of 279.299 million euro. At 31 December 2009 the position was net debts of 241.057 million euro. In June 2009 net debt was 240.542 million euro. This increase is due to the disbursement for purchasing the holding in the subsidiary Elettronica Santerno for 19 million euro, the total absorption of the manoeuvre to renegotiate loan maturities with suppliers, for 24 million euro, and a moderate increase in circulating capital due to volume recovery.

Gearing (defined as the ratio of net financial position to owners' equity) came out, as forecast, at 2.82 at 30 June 2010, compared with 2.49 at 31 December 2009 and 1.89 at 30 June 2009.

## **PERSONNEL**

### **Workforce trend**

	<b>30.06.2010</b>	<b>31.12.2009</b>	<b>30.06.2009</b>
Executives	57	66	80
Clerical staff	945	1,007	1,068
Factory workers	2,662	2,458	2,514
Temporary workers	177	81	28
<b>Total</b>	<b>3,841 (*)</b>	<b>3,612</b>	<b>3,690</b>

(\*) the figure includes 222 resources suspended at 'zero hours' (185 factory workers and 37 clerical staff)

Group personnel as of 30 June amounted to 3,841 resources (including temporary workers, trainees and interim workers, where present), as compared with the 3,612 for 31 December 2009.

The figure includes the scheduled reduction of the workforce in Italy and Germany, people suspended using instruments such as CIGS and/or Kurzarbeit, and the increased workforce needed in view of the increase in volumes in India, China, Argentina and the Business Unit Power Controls (Elettronica Santerno).

As of the date, also in view of the CIGS repayment plan implemented in some Italian plants to deal with the need to increase production volumes, 198 employees were recorded as effectively suspended, of which 35 classified as middle management/clerical staff and 163 factory workers. Of these 198, 118 have already signed a 'voluntary mobility' agreement set to take effect as from 1 January 2011.

In Germany, besides the use of the Kurzarbeit instrument, a process began which is expected to lead to the signing of an Agreement and of a consequent Company Plan, with the aim of reducing the workforce and the structure down to 100 people by 31 March 2011.

In view of the massive reduction/growth programme launched, the Personnel Turnover rate (personnel leaving/personnel taken on) is not meaningful as the number of employees leaving was due mainly to corporate decisions and consequent actions.

In accordance with the three-year plan, after the pilot project that began in 2009, the 'Performance Management' programme to be followed with the 'Management Review', was extended on a vaster scale. These are instruments that can guarantee a detection of competences, capacity and performance of 124 collaborators identified from those of the higher levels of the organisational structure.

Activities aiming at redefining the 'Leadership Model', with a view to adapting it to meet the new principles of Carraro 2.0 are currently being studied and designed.

### **Risks regarding health and safety at work**

The group carries out industrial processes that feature mechanical works and the assembly of mechanical components. The risks associated with health and safety at the workplace are those typical of manufacturing.

The Italian manufacturing facilities continually monitor compliance with current legislation. The other manufacturing facilities operate in compliance with local requirements while maintaining the standards envisaged by Italian legislation as a reference. The Group management is attentive to all efforts to ensure and improve safety at working conditions paying particular attention to situations with a greater degree of risk.

# Performance and results of the Carraro Group Business Units

### **Drivelines – Drivetech Business Unit**

The Business Unit Drivetech, which operates in the axle, transmission and drives sector, for construction equipment and agricultural use, recorded a 15.6% increase in turnover for the 1st half of 2010 as compared with last year.

This change, which, in itself, is entirely significant, in actual fact constitutes an initial, partial recovery from the dramatic crisis that more than halved turnover in 2009.

This increase does not only depend on the restoration of the stocks in the production and commercial pipeline of customers (which had been virtually zeroed as the crisis reached its peak), but rather, and which is even more encouraging, on a return to final sell-out, albeit in a non-homogeneous manner amongst markets and sectors.

The Asian markets, China, India and South America, were those with the best trends, whilst in Europe and North America, the final demand remains weak and erratic.

#### *Agricultural market:*

The basic conditions favourable to the growth trend of machinery for agriculture remained unchanged, but the weakness of the agricultural sector demand is mainly due to the reduced possibilities of credit access.

Where this is not the case due to the favourable local economic situation or the presence of government support, demand is supported, such as, for example, in Turkey, the Middle East, India, China and Brazil.

#### *Construction equipment:*

As this is the sector that had suffered the greatest drop in demand in 2009 by virtue of the destocking, it is also that which recorded the greatest growth rates in this first part of 2010.

Although the demand for housing, commercial and industrial buildings and infrastructures in western countries remains weak, and a slowing is forecast for the emerging countries too, we can reasonably estimate that the current level of turnover will remain constant throughout 2010.

Consequently, the incidence of the 'construction equipment' sector on total Drivetech turnover will be back around 40%, close to past values and, in dimensional terms, comparable with the agricultural sector.

#### *Material Handling Market:*

The generalised return to the economic activities has automatically entailed a greater quantity of goods sold and consequently moved: hence the sector boasts a decidedly improved performance on last year.

#### *Planetary Drives Market:*

The demand for drives has remained solid, particularly in the 1st half of 2010, both as a consequence of commercial relations standing for several years, and for the acquisition of significant market shares, particularly in China, thanks to the new production line opened in the Qingdao plant at end 2009.

In India, the development and industrialisation of the new range of drives was completed for the new wind power sector (pitch & yaw drives). Mass production will soon begin.

In the mining machines market too, featuring limited volumes but of high value, Drivetech maintains its consolidated position with the O&KA brand.

The power-stations segment for escalators remains stable.

Spare parts:

The sale of spare parts has remained in line with last year, but with a different, more favourable mix that sees an increase of independent channels.

\* \* \* \*

We should point out an upward tendency of raw materials for these first six months of 2010, and the appearance of production capacity constraints in the supply chain in Europe, India and China. These factors have resulted in, on the one hand the need to begin negotiating re-pricing with all customers, and on the other, extraordinary logistics costs. Inventories showed growing turnover, but no deterioration of rotation indexes was seen.

### **Gears&Components – GearWorld Business Unit**

The first half of 2010 for Gear World confirmed the hypotheses stated on the plan and budget, for a clear inversion of the trend recorded for 2009.

Total consolidated revenues amount to 72.218 million euros, up 30.3% on the same period for last year (55.418 million euros). The Group demand has been a strong driving factor for the growth of Gear World turnover, with a 45% increase on last year, mainly thanks to the restored needs and stocks of Drivetech customers.

Turnover from third party customers, amounting to 50.98 million euros is up 14.3% on 2009, slightly below budget forecasts, mainly due to the delayed start-up of some new projects that will enter production in the second half of the year.

Sales to third party customers account for 70.6% of turnover (as compared with the 80.4% posted for last year), whilst sales to the Group represent 29.4% of turnover (as compared with the 19.6% for last year), up in line with the trend of the Business Unit Drivetech.

Trend according to geographic area shows the continuous progress of India and China, mainly due to the growth of local economies, but also to transfers of western production privileging collaborations with Global groups with local production.

Sales towards Europe are up, driven by the 'stock exhaustion' phenomenon, and towards South America, thanks to a strongly-expanding economy.

Turnover in North America is stable, where hints of growth have only been seen since May and June 2010. Further consolidation is forecast for the second half of the year.

In terms of markets of application, the trend recorded in many market segments is positive, such as: gardening, electrical appliances, earth moving and material handling. The automotive sector is stable, thanks above all to GW's presence in medium-high niche markets. The agricultural and wind power markets, on the other hand, were down. The latter in particular suffers lesser growth than forecasts, which had caused the OEMs to make significant investments in production. The lesser growth recorded for the first half of 2010 and the difficulties in accessing loans, has negatively affected orders, in particular with regards the Poggiofiorito plant, which continues to record little saturation of plants destined for the production of components for this market.

During the first half of 2010, a focus and specialisation began involving the Italian plants, and a strengthening of the Asian plants, in line with the three-year strategic plan. This provides the background for the entry of Friulia into the capital of SIAP, discussed further on, while the review of the industrial footprint continued.

### **Vehicles – Agritalia Business Unit**

Agritalia closed the first half of 2010 with 23.165 million euros turnover and 965 tractors sold, a figure that is down 37.4% on the same period for last year.

As envisaged when closing last year, the market of reference (special and light tractors from 60 to 100 HP) remained more or less stable at the minimum values for 2009, slowing disposal of stocks throughout the chain. Two endogenous factors have helped reduced the output of the first half of the year: the slow start-up of production of the new range of tractors for the customer Classes, and the delay in introducing the new Power Reverse transmission, developed by Drivetech, initially envisaged for the first quarter of 2010. The availability of a significant orders portfolio and the imminent introduction of the new transmission, allow us to predict significantly greater turnover for the second half of the year, both as compared with the first half of 2010 and with the second half of 2009. The year end forecast is therefore confirmed, with volumes basically unchanged as compared with 2009.

In the period of reference, variable costs have particularly suffered the inefficient start-up, whilst materials costs have remained under control, despite the inflationist tendencies of the period. Fixed costs and general expenses settled at the values forecast for 2010, namely reduced respectively by 7% (net of amortisation) and 1.2% thanks to the activities that aimed to limit expenses and structural costs. These benefits will be more greatly appreciated at year end, when the figure affecting turnover will be less penalising.

## **Power Controls – Elettronica Santerno Business Unit**

The first half of 2010 more than confirmed the exceptional return seen at the end of last year, mainly for the development of the renewable energies sector and photovoltaic in particular.

Thanks to the investments and reorganisation of the commercial structure implemented during the difficult year of 2009, Elettronica Santerno has successfully made the most of the opportunities deriving from the great expansion of the markets of reference and particularly those of Italy and Germany.

In this sector therefore characterised by three-figure development rates, Elettronica Santerno is consolidating its leadership position, confirming this path towards a great internationalisation that underlay the commercial actions taken in 2009.

### Industrial applications

After the generalised drop of 2009, the world industrial drives market showed signs of a reprieve in line with forecasts. Elettronica Santerno enjoyed very positive growth indexed on the export market, where new customers and new applications ensured that the first half closed in line with 2008 results, the year in which the industrial drives sector turnover had reached an absolute maximum.

The scenario of reference allows us to perceive interesting medium-term prospects – particularly in Russia and Brazil. The development of the 690V drives range, intended for specific applications for energy saving and innovative regeneration systems, the first of which have already been installed in Canada and Texas, is proving popular with customers.

### Energy management

The market of the management of renewable energies showed a very strong growth trend in 2010, which – in a certain sense – was actually unexpected even by sector operators.

### *Photovoltaics*

The Italian market records three-figure growth rates on 2009. In a legislative situation that is, as yet, not perfectly outlined, with various hypotheses and alternatives in relation to the renewal of the energy account, the race to complete plant installations by 2010 is, and will be, a main feature of the year. To this, we must add the growth of the German photovoltaic market, far above expectations. These significant increases in volume have sent the whole production system into a crisis, with important repercussions on the materials and components supplies market, to the extent that operators are unable to entirely satisfy the demand for products in the terms required by the market.

For Elettronica Santerno, the Italian market – which has always been the geographic area of reference and in which it enjoys a technological leadership position – has given a certainly important boost. The German market too – after the end of 2009 – has proved to be rather interesting, both in terms of order collection and turnover, considering the sales network and product appreciation, we consider that demand will remain at good levels for the second half of the year and years to come.

In other countries, we should mention a shy reawakening of the Spanish market (still mid-crisis after the exceptional 2008), and the growth in terms of importance, of other European markets such as Belgium, Austria and, above all, France. In these markets, agreements with the major operators in the energy field lay the bases for a 2011 that look certain to prove interesting.

Elettronica Santerno pursues commercial development in far-off markets too, such as South Korea and China, which represent major potential business sources for the years to come, in view of the increasing interest of governments of these areas in the matter of renewable energy.

Finally, activities underway for the homologation of products for North America will allow Elettronica Santerno to face up to the 'departure' of these markets in the sector of renewable energies, with what will certainly be a leading role.

*Wind power*

The products destined for micro and mini wind systems, which from February 2009 have received incentives in the Italian market with a specific energy account, completed the prototyping stage. In a highly competitive market, the introduction of these products by Santerno has been a great success, and forecasts for 2010 - after a first half of the year that generated insignificant business - are in any case positive for the future, also due to some agreements drawn up with the major sector players.

Traction

In the traction field, in 2010 Elettronica Santerno continued its work on developing a new hybrid platform for the use of hybrid and/or electric traction systems for town buses, as part of a project financed by an "Industria 2015" grant.

### **Significant events in the first half of 2010**

On 31 March 2010, the purchase of a minority share (33%) in the company Elettronica Santerno SpA was subscribed.

On 13 April 2010, a framework agreement was signed between Carraro and the financing banks, valid until 31 December 2012. The agreement concerned renegotiating maturities and terms and conditions of contracts existing with financing banks for some Group company financial loans at the reference date of 31 December 2009.

Specifically, this agreement sets forth the concession of a waiver on the 31 December 2009 financial covenants and a redefinition of the same for future years, the resetting of maturities for the repayment of portions of the principal on current medium- and long-term loans with 2010 and 2011 maturities, extending them by two years over the original amortisation schedules, the confirmation of revolving line (RCF) availability for an amount of 50 million euros, the maintenance, upon a comprehensive reduction of 47 million euros, of short-term lines of credit during the term of the agreement, and the right to distribute dividends subject to compliance with specific financial covenants. These conditions were agreed upon with the credit institutes against payment of an upfront fee and the increase of spreads correlated with interest rates up to a maximum of 200 bps (basis points).

On 30 June 2010, the covenants contractually envisaged for that date were met.

On 30 June 2010, in order to support the development of the business activities under the scope of gearing, in line with the path envisaged by the Carraro Group three-year plan, the Shareholders' Meeting of SIAP SpA resolved to increase capital by a total of 7.5 million euros (thereby taking the share capital of SIAP from 10,122,616 euros to 17,622,616 euros).

More specifically, 4.5 million euros were subscribed by the company Gear World SpA, a sub-holding controlled by the Components B.U., and 3 million euros by Friulia SpA, the Friuli Venezia Giulia regional finance company (which settles at 17.02% of the new share capital).

This agreement with Friulia aims to guarantee continuity of personnel employment in conditions of good economic and financial balance. So, the strategic role of the "Maniago hub" is confirmed for the production of transmission shafts, cylindrical gears, bevel gear pairs, epicycloidal gears and assembled units for power transmissions and axles.

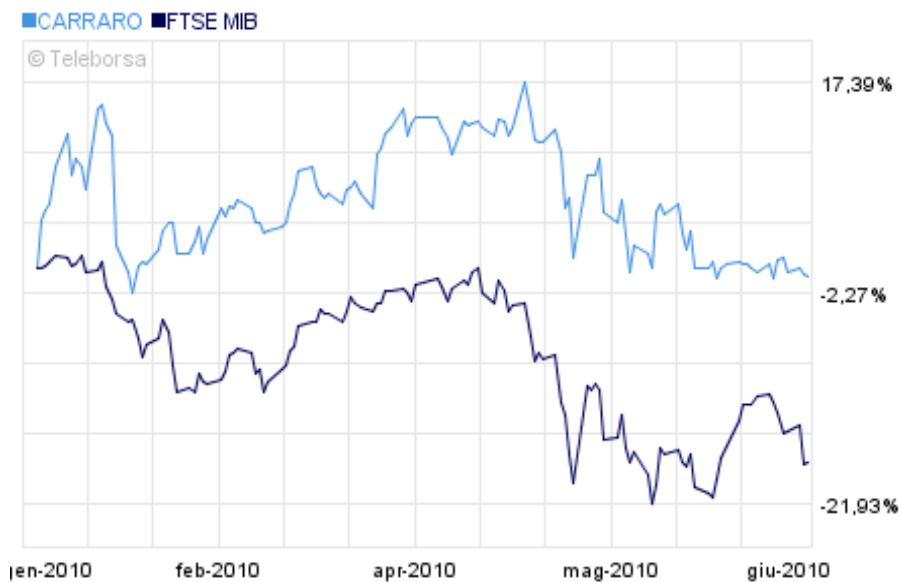

As well as acquiring stock in SIAP SpA, Friulia SpA, the Friuli Venezia Giulia regional finance company, shall also issue a medium-long term loan to SIAP for 4 million euros.

### **Share performance**

In the first six months of 2010, the Carraro share recorded a fairly constant trend, always remaining within a relatively limited range, with performance that is better than the trend of the main Stock exchange indexes (FTSE MIB), although following the trend.

The official period average price was 2.442 euros, with a minimum listing on 26th January at 2.204 euros and a peak of 2.690 euros on 26 April, just before presentation of the three-year plan.

### **TRANSACTIONS WITH RELATED PARTIES**

Transactions with related parties carried out during the period gave rise to relationships of a commercial, financial or advisory nature and were expedited at market terms, in the economic interest of the individual companies involved in the transactions.

No transactions were carried out that were atypical or unusual with respect to normal business operations, with the exception of the conferment of the business arm of Agritalia S.p.A. to Carraro S.p.A., and the interest rates and terms applied to and by the companies in their reciprocal financial relationships are in line with market terms.

Detailed information on the transactions carried out with related parties are provided in the Explanatory Notes to the Interim Financial Statements.

## **STANDARDS USED IN PREPARING THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

The annual consolidated financial statements are drawn up in compliance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board ("IASB") and homologated by the European Union in accordance with Regulation no. 1606/2002 and with the provisions issued in implementation of Art. 9 of Italian Legislative Decree no. 38/2005. These condensed consolidated interim financial statements have been drawn up in abbreviated form in accordance with IAS 34 'Interim financial statements'. As such, they do not include the information required for the consolidated annual financial statements and must therefore be read together with the consolidated annual financial statements drawn up for the year ended on 31 December 2009. Furthermore, these statements are based on the assumption of the company as a going concern, considering both the framework agreement signed with the banking system and the period economic equity trend.

### **Events subsequent to the balance sheet date**

In July 2010, moreover, with a view to better focusing the development objectives in the core sector of high quality gearing, SIAP SpA completed sale of its majority share (of 50.0001292% ) of the company STM Srl, steel component forging company, with production plant adjacent to that of SIAP, to MA RIV Srl (company that can be traced to the current minority shareholder).

This operation, worth a total of 5.3 million euros, will take the 'Maniago pole' to further concentrate its investments and R&D activities on processes and technologies that are increasingly strategic in a bid to better satisfy the demand both from traditional and emerging markets.

### **BUSINESS OUTLOOK FOR THE CURRENT YEAR**

Different performance between the various business areas is expected during the second part of the year.

Current visibility confirms growth in line with the present trend for Drivetech through to the end of the third quarter. The dimensions of the demand for the latter part of the year are still being defined.

For Gear World, the second half year sees a forecast of a further consolidation of demand, whilst for Agritalia, the second part of the year will see the possibility of following up on the acquired orders portfolio, bringing turnover to forecast levels, in line with the values recorded for 2009.

At the same time, Elettronica Santerno will continue on its path of growth for the whole year, reaching results above expectations both compared with last year and with budget volumes and economic performance.

In this context, further improved profitability is also expected for the second half of the year.

\*\*\*\*\*

With reference to the provisions of Articles 36 and 39 of Consob Order 16191 of 29.10.2007 (the so-called “Market Regulations”) and of Art. 2.6.2 Section 15 of the Stock Exchange Regulations we can confirm that the parent company Carraro S.p.A. meets the conditions required by points a), b) and c) of Section 1 of the aforementioned Art. 36 on the subject of accounting situations, bylaws, corporate bodies and administrative and accounting control of its subsidiaries incorporated and regulated in countries that do not belong to the European Union.

The span of the group includes 31 companies of which 18 are established and regulated in non-European Union countries, specifically in Argentina, Brazil, China, India, Russia and the United States; of these, six, in Argentina, China, India, and the United States, are significant under the terms of Title VI, Section I I of the Issuer Regulations (Consob Order 11971/1999).

**EXPLANATORY AND SUPPLEMENTARY NOTES TO THE CONSOLIDATED ACCOUNTS  
TO THE HALF-YEARLY FINANCIAL REPORT AS OF 30 JUNE 2010**

**1. Introduction**

Publication of the consolidated financial report and abridged consolidated financial statements of Carraro S.p.A. and subsidiaries, the Carraro Group, for the period running from 1 January 2010 to 30 June 2010 is authorised by resolution taken by the Board of Directors on 6 August 2010.

Carraro S.p.A. is a joint-stock company registered in Italy at the P adua Companies Register and controlled by Finaid S.p.A..

Carraro S.p.A. is not subject to management and coordination activities under the terms of Art. 2497 *et seq* of the Civil Code.

The controlling shareholder of Finaid S.p.A. does not direct and coordinate Carraro's operations. More specifically:

- Finaid is a purely financial holding;
- Finaid does not issue any directions to Carraro;
- the Finaid Board of Directors does not approve Carraro's strategic plans or business plans nor does it "interfere" regularly in its operations;
- there are no relationships of a commercial or financial nature between Finaid and Carraro.

These condensed consolidated interim financial statements are presented in euro, as this is the currency in which most of the group's operations are conducted. The foreign companies are included in the consolidated report in accordance with the principles described in the notes that follow.

Amounts in these financial statements are given in euro thousands, while amounts in the notes are indicated in euro millions (mln).

The Carraro Group companies are principally engaged in the manufacture and marketing of drive systems developed for agricultural tractors, construction equipment, material moving machinery, light commercial vehicles and automobiles, and electronic control and power systems.

Carraro, as the parent company, has function of strategic direction, control and coordination of the four business units of the Carraro Group: Drivelines (under the control of Carraro Drive Tech S.p.A.), Gears & Components (under the control of Gear World S.p.A.), Vehicles (Divisione Agritalia, industrial branch of the company Carraro S.p.A.) and Power Controls (under the control of Elettronica Santerno S.p.A.).

The consolidated financial statements, besides the Business Units mentioned above and the companies included therein, comprise Carraro International, based in Luxembourg, which carries on the work of financial and treasury management of the Group, as well as business of a commercial nature at the Swiss branch, Carraro Finance, based in Dublin (Ireland), which supports Carraro International in the performance of financial and treasury work, and Carraro Technologies, based in Pune (India), which works on design, research and development in favour of the Group and of third parties.

**Reporting criteria and accounting principles**

The annual consolidated financial statements are drawn up in compliance with the International Financial Reporting Standards ('IFRS') issued by the International Accounting Standard Board ("IASB") and homologated by the European Union in accordance with Regulation no. 1606/2002, in addition to with the provisions issued in implementing Art. 9 of Italian Legislative Decree n. 38/2005. These abridged consolidated financial statements have been drawn up in abridged form in compliance with IAS 34 'Interim financial statements'. As such, it does not include all the information required by the consolidated annual financial statements and must be read together with the consolidated annual financial statements drawn up for the year ended on 31 December 2009.

In preparing these abridged half-yearly financial statements, drawn up in accordance with IAS 34 – Interim financial statements – the same accounting standards have been used as adopted in preparing the consolidated financial statements as of 31 December 2009, with the exception of that described in the paragraph below entitled "Accounting standards, amendments and interpretations coming into effect as from 1 January 2010"

The abridged, consolidated, half-yearly financial statements were prepared assuming that the company is a going concern, on the basis of the considerations already explained in the half-yearly financial report.

The preparation of the interim financial statements requires management to make estimates and assumptions based on the best information available, which affect the value of revenues, costs, assets and liabilities on the statements and the disclosure in relation to potential assets and liabilities as of the date of the interim financial statements.

Some of the measurement processes, and in particular the more complex processes, such as calculating any impairment of non-current assets, are generally only carried out in a complete manner upon preparing the annual financial statements, when all information as may be necessary is available. This is without prejudice to cases where there are indicators of impairment that require an immediate assessment of loss of value.

## **2. Structure and content of the abridged half-yearly consolidated financial statements**

These abridged half-yearly consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and ratified by the European Union and to this end the figures of financial statements of the consolidated companies have been reclassified and adjusted appropriately.

### **2.1 Format of the consolidated financial statements**

With regard to the format of consolidated accounting schedules, the Company opted to present the following accounting statements:

#### ***Financial position***

The consolidated statement of financial position is presented with separate disclosure of Assets, Liabilities and Shareholders' Equity.

Assets and Liabilities are in turn presented according to their classification as current and non-current.

#### ***Income Statement***

Items on the consolidated income statement are classified by their nature.

#### ***Statement of Comprehensive Income***

The statement of comprehensive income includes items of income and costs that are not posted on the period income statement, as required or permitted by the IFRS, namely changes to cash flow hedge reserve, changes to the conversion reserve, the result of financial assets available for sale and actuarial profits/losses resulting from the application of IAS 19.

#### ***Statement of Cash Flows***

The consolidated cash flow statement illustrates the changes in cash and cash equivalents (as presented in the statement of financial position) divided by cash generating area in accordance with the "indirect method", as permitted by IAS 7.

#### ***Statement of Changes in Shareholders' Equity***

The statement of changes in shareholders' equity is presented in accordance with the requirements of the international accounting standards, showing the total result for the period and all changes generated from transactions with shareholders.

#### ***Accounting statements of transactions with related parties (Consob resolution 15519)***

With reference to the reporting of related-party transactions in the financial statements, provided for in Consob Resolution 15519 of 27 July 2006, balances of a significant amount are specifically indicated, to facilitate understanding of the assets and liabilities, financial position and results of the group, in the table of paragraph 8 below devoted to related party transactions.

## 2.2 Content of the Condensed Consolidated Interim Financial Statements

### Consolidation scope

The Group's consolidated financial statements include the financial statements of Carraro S.p.A. and of the companies in which it holds, directly or indirectly, the majority of voting rights at the annual general meeting.

The definition of a subsidiary is in keeping with that given in the Group's annual financial statements at 31 December 2009.

The following companies are consolidated using the line-by-line method:

Name	Based in	Currency	Par value Share capital	Group stake
<b>Parent company:</b>				
Carraro S.p.A.	Campodarsego (PD)	Euro	23,914,696	
<b>Italian subsidiaries:</b>				
Carraro Drive Tech S.p.A.	Campodarsego (PD)	EUR	50,758,291	100.00%
Elettronica Santerno S.p.A.	Campodarsego (PD)	EUR	2,500,000	100.00%
Gear World S.p.A.	Padua	EUR	35,084,397	73.82%
M.G. Mini Gears S.p.A.	Padua	EUR	15,000,000	65.44%
Siap SpA	Maniago (PN)	EUR	17,622,616	61.26%
Stm S.R.L.	Maniago (PN)	EUR	1,549,080	30.63%
<b>Foreign subsidiaries:</b>				
Carraro International S.A.	Luxembourg	EUR	39,318,000	100.00%
Carraro Deutschland Gmbh	Hattingen (Germany)	EUR	10,507,048	100.00%

MiniGears Suzhou Co. Ltd.	Suzhou (China)	USD	4,300,000	65.44%

### Changes in the consolidation area and other operations of company reorganisation

On 31 March 2010, the purchase of the minority share (33%) was subscribed in the company Elettronica Santerno SpA by Carraro International S.A., taking the majority share held by Carraro S.p.A. to 100%.

On 30 June 2010, in order to support the development of the business activities under the scope of gearing, in line with the path envisaged by the Carraro Group three-year plan, the Shareholders' Meeting of SIAP SpA resolved to increase capital by a total of 7.5 million euros (thereby taking the share capital of SIAP from 10,122,616 euros to 17,622,616 euros).

More specifically, 4.5 million euros were subscribed by the company Gear World SpA, a sub-holding controlled by the Components B.U., and 3 million euros by Friulia SpA, the Friuli Venezia Giulia regional finance company (which settles at 17% of the new share capital). This agreement with Friulia aims to guarantee continuity of personnel employment in conditions of good economic and financial balance. So, the strategic role of the "Mantiago hub" is confirmed for the production of transmission shafts, cylindrical gears, bevel gear pairs, epicycloidal gears and assembled units for power transmissions and axles.

As well as acquiring stock in SIAP SpA, Friulia SpA, the Friuli Venezia Giulia regional finance company, shall also issue a medium-long term loan to SIAP for 4 million euros.

On 1 April 2010, Gear World S.p.A. sold the entire share held in the company South America Gears S.A. to Carraro Drive Tech S.p.A. for a price of 5,615,000 euros. Subsequently the shareholders' meetings of Carraro Argentina S.A. and South America Gears S.A. resolved the merger project by incorporation of South America Gears S.A. into Carraro Argentina S.A., which is scheduled for completion by end 2010.

In July 2010, the deed of sale of the investment held by Siap S.p.A. in STM Srl was stipulated, as explained in paragraph 5 'Assets held for sale'.

### 3. Consolidation criteria and accounting principles

#### 3.1 Consolidation criteria

The figures are consolidated using the line by line method, that is assuming the entire amount of the assets, liabilities, costs and earnings of the individual companies, regardless of the stock held in the company.

Foreign companies are consolidated using financial statement formats in line with the layout adopted by the parent company and compiled in accordance with common accounting standards, as applied for Carraro S.p.A. The directors prepared the interim financial statements as of 30 June 2010 using the same criteria as for those of year end.

The carrying amount of consolidated equity interests, held by Carraro S.p.A. or by other companies within the consolidation scope, was offset by the relevant amount of shareholders' equity in the subsidiary company.

The amount of shareholders' equity and the net result of these third-party shareholders are shown in the Consolidated Statement of Financial Position and Income Statement respectively.

Payable and receivables, income and expenditure and all operations undertaken between the companies included within the consolidation scope have been eliminated, including dividends distributed within the Group.

Profits not yet realised and capital gains and losses deriving from operations between companies of the Group have also been eliminated.

Intra-group losses that indicate impairment are recognized in the consolidated financial statements.

Balances in foreign currencies have been converted into euro using the exchange rate of the end of the period for assets and liabilities, historical exchange rates for shareholders' equity items and average exchange rates in the period for the income statement.

Exchange differences resulting from this conversion method are shown in a specific shareholders' equity item entitled "Foreign currency translation reserve".

The exchange rates applied for the translation of accounts presented in foreign currencies were as follows:

Currency	Average exchange 01.01.2010/ 30.06.2010	Exchange as of 30.06.2010	Average exchange 01.01.2009/ 30.06.2009	Exchange as of 31.12.2009	
Indian Rupee	60.73	56.9	9	65.59	67.04
Polish Zloty	4.00	4.15		4.48	4.1
US Dollar	1.33	1.23		1.33	1.44
Chinese Renminbi	9.06	8.32		9.11	9.84
Argentine Peso	5.13	4.83		4.85	5.46
Russian Ruble	39.89	38.2	8	44.1	43.15
Brazilian Real	2.37	2.21		2.92	2.51

#### 3.2 Accounting standards and measurement criteria

##### Accounting standards, amendments and interpretations coming into effect as from 1st January 2010

###### *Standards relevant to the Group for the first half of 2010*

- IAS 27 (2008): Consolidated and individual financial statements

The changes to IAS 27 mainly concern the accounting of transactions or events affecting interest shares held in subsidiaries and the attribution of losses of the subsidiary to the interests pertaining to third parties. In accordance with the rules of principle transition the Group has adopted these changes to IAS 27 prospectively, noting effects on the accounting of certain acquisitions and sales of minority shares in subsidiaries.

- IFRS 3 (2008): Business combinations

The amendment clarifies that third party interest items that do not give rise to the right of holders to receive proportional shares of the subsidiary's net assets must be measured at fair value or according to the requirements of the accounting standards.

- "Improvement" to IFRS 5: Non-current assets held for sale and discontinued operations.

*Standards not relevant to the Group*

- Amendments to IAS 28: Investments held in related companies and to IAS 31 – Investments in joint ventures consequent to the changes made to IAS 27.
- Amendment to IFRS 2: Share-based payments: payments based on Group shares settled in cash.
- IFRIC 12 – Agreements for concession services.
- IFRIC 17 – Distribution of non-liquid assets to shareholders.
- IFRIC 18 – Transfer of assets from customers.
- Amendment to IAS 39: Financial instruments: accounting and assessment – elements that can be qualified for hedging

**Intra-group transactions**

In accordance with the Consob recommendations of 20 February 1997 (D AC/97001574) and 27 February 1998 (DAC/98015375) we can confirm that:

- a) intragroup transactions and transactions with related parties which took place during the period, gave rise to trade, financial or consultancy-related relationships, and were carried out under standard market terms, in the financial interest of the individual companies involved in the transactions;
- b) no atypical or unusual operations were implemented as compared with normal business management;
- c) the interest rates and terms applied (paid and received) in financial relationships between the various companies are in line with market terms.

**4. Information on business segments and geographical areas**

Information on Operating Segments is given on the basis of the internal reporting provided to the highest operating decision-making level.

For operational purposes, the group manages and controls its business on the basis of the type of products supplied. Four operating segments were identified, corresponding to the following Business Units:

- *Drivetech*: production and marketing of axles, transmissions and drives for construction equipment and agricultural applications;
- *Gears & Components*: production and marketing of components for axles and transmissions, and of gears;
- *Vehicles*: production and marketing of agricultural tractors;
- *Power Controls*: production and marketing of electronic and power systems.

The item "other segments" brings together the Groups operations not allocated to the four segments, and comprises the central holding and group management activities.

The Management examines separately the results achieved by the operating segments in order to take decisions on the allocation of resources and on assessment of the results. The results of the segments are assessed on the basis of the operating profit or loss which may differ in some respects from the operating profit or loss shown in the consolidated financial statements.

#### 4.1 Business segments

The most significant information by business segment is presented in the tables below, with comparisons for the first half of 2009 and first half of 2010.

##### a) economic data

30.06.2010 Drive <i>(amounts in euro thousands)</i>	s & Drivelines	Components	Vehicles	Power Controls	Eliminations and items not allocated	Total Consolidated

#### 4.2 Geographic areas

The Group's industrial operations are located in various areas of the world: Italy, other European countries, North and South America, Asia and other non-European countries.

The Group's sales, deriving from the manufacturing carried out in the above areas are achieved equally with customers in Europe, Asia and the Americas. Other information is better commented in the half-yearly interim report on operations.

##### a) Sales

The breakdown of sales by main geographic area is shown in the following table.

<b>Geographical Area</b> <i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>%</b>	<b>30.06.2009</b>	<b>%</b>
Germany	49,718 16.32		46,430	18.17
North America	28,688 9.42		29,880	11.69
South America	24,319 7.98		18,704	7.32
China	22,382 7.35		23,098	9.04
United Kingdom	20,233 6.64		6,818	2.67
Switzerland	14,723 4.83		17,446	6.82
India	13,190 4.33		8,024	3.14
France	12,190 4.00		24,346	9.52
Belgium	8,313 2.73		4,799	1.88
Poland	5,462 1.79		2,628	1.03
Turkey	4,716 1.55		1,153	0.45
Other E.U. areas	19,073 6.26		19,883	7.78
Other non-E.U. areas	6,681 2.19		5,265	2.06
<b>Total Abroad</b>	<b>229,688 75.39 208,</b>		<b>474</b>	<b>81.56</b>
Italy	74,960 24.61		47,120	18.44
<b>Total</b>	<b>304,648 100</b>		<b>255,594</b>	<b>100</b>
of which:				
<b>Total E.U. area</b>	<b>189,949 62.35</b>		<b>152,024</b>	<b>59.48</b>
<b>Total non-E.U. area</b>	<b>114,699 37.65</b>		<b>103,570</b>	<b>40.52</b>

##### b) accounting values of assets by area

The following table illustrates the book values of current and non-current assets according to the primary geographic areas of manufacture.

<i>(amounts in euro thousands)</i>	<b>30.06.2010 31.12.2</b>		<b>009</b>	
	<b>CURRENT ASSETS</b>	<b>NON-CURRENT ASSETS</b>	<b>CURRENT ASSETS</b>	<b>NON-CURRENT ASSETS</b>
Italy	283,038	465,412	<b>219,216 44</b>	<b>0,036</b>
Other EU countries (Germany, Poland)	169,125	141,412	<b>188,496 89,29</b>	<b>1</b>
North America	6,776	10,074	<b>4,505 8,926</b>	
South America	43,071	14,372	<b>32,118 13,033</b>	
Asia (India, China)	70,273	71,386	<b>43,196 61,860</b>	
Non-E.U. countries	496	44	<b>391 5</b>	
Cancellations and items not allocated	-190,946	-352,168	<b>-176,914 -26</b>	<b>1,810</b>
<b>Total</b>	<b>381,833</b>	<b>350,532 311,0</b>	<b>08</b>	<b>351,341</b>

**c) investments by geographical area**

The table below illustrates the value of investments in the primary geographic areas of manufacture.

<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2009</b>
Italy	9,543	16,940
Other E.U. countries	1,001	992
North America	409	420
South America	163	567
Non-E.U. countries	3,194	8,621
Asia	-	3
Cancellations and items not allocated	-3,914	-1,509
<b>TOTAL</b>	<b>10,396</b>	<b>26,034</b>

**5. Assets held for sale (note 22)**

In July 2010, with a view to better focusing the development objectives in the core sector of high quality gearing, SIAP SpA completed sale of its majority share (of 50.0001292%) of the company STM Srl, steel components forging company, with production plant adjacent to that of SIAP, to MARIV Srl. As such, on 30 June 2010, it was classified amongst assets under disposal. This operation, worth a total of 5.3 million euros, will take the 'Maniago pole' to further concentrate its investments and R&D activities on processes and technologies that are increasingly strategic in a bid to better satisfy the demand both from traditional and emerging markets.

Effects on the consolidated financial statement items of the posting of the company STM Srl amongst assets/liabilities held for sale.

<b>30.06.2010 STM</b> <i>(amounts in euro thousands)</i>	<b>srl</b> <b>30.06.2010</b>
Non-current assets	7,533
Current assets	8,333
<b>Assets held for sale</b>	<b>15,866</b>

12) FINANCIAL COSTS AND EXPENSES	-5,105	-7,142
13) FOREIGN EXCHANGE INCOME/EXPENSES	1,578	1,654
14) ADJUSTMENTS OF FINANCIAL ASSETS	-	-
<b>Total</b>	<b>-3,333</b>	<b>-4,817</b>

Although suffering a net financial position that shows greater debt than 30 June 2009, in view of the lesser cost of money, net financial expense is down to 4.9 ml. euro, 1.61% of turnover, compared with 6.5 mln euro (2.53% of turnover) in the first half of 2009.

Net exchange differences at 30 June 2009 were a positive 1.58 mln euro and include, as well as the adjustment of equity entries, the MTM (Mark to Market) effects of measurement at fair value of derivative instruments, particularly in relation to the fluctuations recorded in particular of the Argentinean Peso, the Chinese Renminbi and the Indian Rupee.

**Income taxes (note 4)**

<b>INCOME TAXES</b>		
<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>30.06.2009</b>
<i>CURRENT TAXES</i>	4,335	1,666
<i>TAXES FROM PREVIOUS YEARS</i>	-	430
<i>DEFERRED TAX LIABILITIES</i>	1,955	-7,293
<b>Total</b>	<b>6,290</b>	<b>-5,197</b>

**Current taxes**

Tax on the income of Italian companies is calculated at 27.50%, for IRES (corporation tax), and at 3.90% for IRAP (regional business tax) on the respective taxable income for the period. Taxes for the other foreign companies are calculated at the rates in force in the various countries.

**Tax consolidation expense and income**

The companies Carraro S.p.A. and Carraro Drive Tech S.p.A. adhere to the tax consolidation of the parent company Finaid S.p.A.. The charges/income deriving from the transfer of the IRES taxable base are booked under current taxes. According to the current regulations of the Tax Consolidation Agreement, Carraro S.p.A. has the right to "relief" for the use of the tax losses of the subsidiary companies by Finaid, other than those belonging to the Carraro Group. This "relief" amounts to 3% of the tax loss of the other companies of the Finaid Consolidation possibly offset with the taxable amounts of Carraro S.p.A. and Carraro Drive Tech S.p.A..

The regulation also provides for a mechanism of priority offsetting of the positive and negative taxable amounts between Carraro SpA and Carraro Drive Tech SpA with respect to offsetting with the other companies of the Finaid Consolidation. The same mechanism is provided for with reference to the non-deductible expenses as an effect of the Thin Cap Rule. There is also a tax consolidation in place between Gear World Spa and its subsidiaries.

**Deferred tax liabilities**

These arise aside on the temporary differences between the carrying amount of the assets and liabilities and the corresponding tax value.

As well as taxes entered in the income statement for the period, deferred tax assets for 20 euro/000 were charged directly to shareholders' equity.

**Group earnings or losses per share (Note 5)**

Basic earnings (losses) per share are calculated by dividing the net earnings (net losses) for the year attributable to the company's ordinary equity holders by the weighted average number of outstanding ordinary shares during the year.

	<b>30.06.2010</b>	<b>31.12.2009</b>	<b>30.06.2009</b>

At 30 June 2010 there were leased assets recognised as plant and machinery of 5.31 mln euro and as land and Buildings of 4.06 mln euro.

The main investments in plants and machinery were made by STM S.r.l. and by O&K.

The increases in industrial equipment refer primarily to the acquisitions of casting moulds and tools by Mini Gears Suzhou, Carraro Drive Tech S.p.A., Carraro India and Carraro S.p.A. (Divisione Agritalia).

The increases in Investments in Progress and Deposits were mainly due to investments being made in Carraro India Ltd., Mini Gears S.p.A., Mini Gears Suzhou, Carraro Drive Tech S.p.A. and Siap S.p.A..

The properties of Carraro S.p.A. have mortgage loans secured against them for a total of 26.3 mln euro.

**Intangible assets** (Note 7)

These items present a net balance of 81.37 mln euro compared with 79.96 mln euro in the previous period. The breakdown is as follows:

Items (amounts in euro thousands)	Goodwill	Develop ment costs	Royalties and patents	Concessions, Licenses and Trademarks	Invest. in prog. and deposits	Other intangible assets	Total

The item Licences and trademarks includes the fair value of the Brand (3.30 mln euro) and the Technology (3.50 mln euro) recorded in the 2007 period in the acquisition of the company Mini Gears. These intangible assets with a limited useful life are amortised on a straight-line basis over the terms estimated at 10 and 7 years respectively. The other intangible assets with a limited useful life are amortised on a straight-line basis over terms estimated at between 3 and 5 years.

**Goodwill**

Goodwill is attributed to the entity, respectively belonging to the various operative sectors, or rather Business Units of the group (corresponding to the CGU, Cash Generating Units, for the purpose of the impairment testing), as reported in the table below.

These CGUs are subjected to specific impairment testing at least once a year, in application of the provisions of IAS 36 as described in the explanatory notes to the financial statements as of 31 December 2009.

As of today's date, as compared with the last occasion, no elements have emerged such as to consider that the hypotheses and parameters used in the test performed for the financial statements as of 31 December 2009 should be reviewed.

The amounts of goodwill recognized are shown below:

(amounts in euro thousands)	Business Unit (CGU)	31.12.2009	Changes	30.06.2010
O&K Antriebstechnik GmbH & Co. KG.	Drivelines	3,000	-	3,000
Carraro India Ltd	Drivelines	18,079	-	18,079
Elettronica Santerno S.p.A.	Power Controls	20,877	1,000	21,877
Mini Gears Group	Components	20,215	-	20,215
<b>Total</b>		<b>62,171</b>	<b>1,000</b>	<b>63,171</b>

## Interim Financial Report at 30 June 2010

On 31 March 2010, the purchase option was exercised by Carraro International S.A. over the remaining capital share (33%) in Elettronica Santerno SpA, at the price already established as 18 million euros. The structure of the options in place on minority shares had already led to the full consolidation of the investment, in accordance with international accounting standards. On the same date, the willingness was expressed to recognise a further amount of 1 million euros to the counterpart, as a settlement with regards to all debt and credit positions of the respective groups, as originating from the original investment purchase agreement, thereby increasing the final cost of the acquisition. This increase was considered as a greater value of goodwill.

### *Investments in progress and deposits*

The item refers mainly to development costs incurred by the companies Carraro S.p.A., Carraro Drive Tech S.p.A. and Elettronica Santerno S.p.A.. These expenses derive from the design of new product lines developed in connection with similar projects launched by customers. Development costs generated internally are capitalised at cost.

### *Licences and Trademarks*

The increases mainly refer to licenses and the start-up of software by Carraro S.p.A..

### *Research and development costs (non-capitalizable)*

During the course of the first half of 2010 research and trials were carried out by some of the personnel employed in both development and production. For these operations, the Group sustained total expenditure of 7.25 mln euro (not capitalised through the lack of the requirements envisaged by IAS 38). (6.32 mln euro in the first half of 2009).

### **Real estate investments** (Note 8)

These present a net balance of 0.7 mln euros and relate to civil property owned by Carraro S.p.A., Siap S.p.A and Carraro Argentina SA.

### **Equity investments** (Note 9)

#### **Equity interests in subsidiaries**

The balance of 0.175 mln euro can be broken down as follows:

Name	Parent company	Based in	Currency	Par value Share Capital	Percentage stake	Value of Net Equity 30.06.10 Ctv. Euro	Carrying amount
Carraro PNH Components India Ltd.	Carraro India Ltd	Bombay (India)	Rupees	10,000,200	99.998%	119,080	175,460

*Carraro PNH Components India Ltd.* is a non-operational company, whose only assets consist of land for industrial development and the decision not to consolidate is not considered significant in presenting the accounts.

### **Financial assets** (Note 10)

<i>(amounts in euro thousands)</i>	30.06.2010	31.12.2009
Loans to third parties	300	122
<b>LOANS AND RECEIVABLES</b>	<b>300</b>	<b>122</b>
Available for sale	165	167
Other financial assets	897	638
<b>OTHER FINANCIAL ASSETS</b>	<b>1,062</b>	<b>805</b>
<b>NON-CURRENT FINANCIAL ASSETS</b>	<b>1,362</b>	<b>927</b>
With third parties	411	13,976
<b>LOANS AND RECEIVABLES</b>	<b>411</b>	<b>13,976</b>
Fair value of derivatives	1,809	48
Other financial assets	1,344	537
<b>OTHER FINANCIAL ASSETS</b>	<b>3,153</b>	<b>585</b>
<b>CURRENT FINANCIAL ASSETS</b>	<b>3,564</b>	<b>14,561</b>

### *Non-current financial assets*

These include a loan of 0.300 mln euro to CPS and available-for-sale assets of 0.165 mln euro consisting mostly of guarantee deposits. These also include the interest shares and commission on bank loans referred for competence to subsequent years.

*Other current financial assets*

These include cash flow hedging derivatives of 1.809 mln euro. The balance relates to the fair value recognized at 30 December 2010 on existing derivatives on foreign currencies. As described in detail in the section on derivative financial instruments (Paragraph 9), gains or losses deriving from hedging instruments are recognized in the statement of comprehensive income and accumulated in a specific shareholders' equity reserve for the efficient part, while the remaining (inefficient) portion is recognized in the income statement. These also include the portion of interest and fees on bank loans and on interest for VAT rebates deferred for accrual to the following year.

*Current loans and receivables*

As of 31 December 2009, these included a loan asset for 13.94 mln euros granted to the Busi group under the scope of the contract to purchase the remaining 33% of Elettronica Santerno by Carraro S.p.A.. This purchase took place on 31 March 2010.

**Deferred tax assets and liabilities (Note 11)**

The carrying amount of net deferred tax assets recognized at 30 June 2010 was 21 mln euro. (31 December 2009: 22.7 mln euro).

Deferred tax assets include the potential benefits associated with retained tax losses, insofar as it is likely that there will be suitable future taxable profits against which these losses can be used in a reasonably short period. Tax losses to be carried forward, for which it was decided not to recognize deferred tax assets at 30 June 2010 amounted to 47.9 mln euro. (31 December 2009: 26.4 mln euro) with a tax effect of 11.5 mln euro (31 December 2009: 7.1 mln euro).

We did not consider it necessary to post deferred assets with reference to financial expenses that are temporarily non-deductible in accordance with the Thin Cap Rule for a taxable figure of 7.5 mln euros (31 December 2009: 5.9 mln euro) with a tax effect of 2.1 mln euro (31 December 2009: 1.6 mln euro).

**Trade and other receivables (Note 12)**

<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2009</b>	<b>009</b>
<b>NON CURRENT TRADE RECEIVABLES</b>		- -	
With related parties		- -	
With third parties		- 2,133	
<b>OTHER NON-CURRENT RECEIVABLES</b>		- 2,	<b>133</b>
<b>NON-CURRENT TRADE &amp; OTHER RECEIVABLES</b>		- 2,	<b>133</b>
With related parties		38 45	
With third parties		129,669 67,950	
<b>CURRENT TRADE RECEIVABLES</b>		<b>129,707 67,995</b>	
With related parties		331 287	
With third parties		37,720 36,71	3
<b>OTHER CURRENT RECEIVABLES</b>		<b>38,051 37,000</b>	
<b>CURRENT TRADE &amp; OTHER RECEIVABLES</b>		<b>167,758 104,</b>	<b>995</b>

The increase in trade receivables with third parties is strictly linked to the significant increase in sales.

7) Minority interests	19,098	15,150

The Shareholders' Meeting of Carraro SpA held on 30 April 2010 approved a treasury share purchase and disposal plan involving no more than 5% of the share capital, for a term of 18 months, which provides for: a purchase price per ordinary share no less than 30% lower, and no more than 20% higher than the reference price for the share recorded in the stock exchange session on the day prior to each individual transaction, and a sale price per ordinary share no less than 20% lower, and no more than 20% higher than the reference price for the share recorded in the stock exchange session on the day prior to each individual transaction.

The same meeting resolved to cover the losses of the year 2009, amounting to 8,557,205 euros by withdrawing this same amount from the extraordinary reserve.

We would remind you that on 23 December 2009, following conferment of the business of the Agritalia S.p.A. company to Carraro S.p.A., the share capital of Carraro S.p.A. was increased by Euro 2,074,696 by the issue of 3,989,800 shares with a nominal value of Euro 0.52 each at a price of Euro 2.85 of which Euro 2.33 as a share premium destined exclusively for the subscription of Agritalia S.p.A..

With effect from 31 December 2009, the share capital of Carraro S.p.A. is therefore Euro 23,914,696, corresponding to 45,989,800 shares of a nominal value of Euro 0.52 each.

The company has issued a single category of ordinary shares which do not give the right to a fixed dividend. No other financial instruments which assign equity and investment rights have been issued.

At 30 June 2010, 1,106,155 had been purchased for a total investment of Euro 3.123 mln.

**Other reserves**

The item Other reserves for 24.491 mln euros includes the Carraro S.p.A. reserves and all else generated by the excess of shareholders' equity of the consolidated companies as compared with the corresponding book values of the relevant investments and consolidation adjustments.

**IAS/IFRS 1st adoption reserve**

The IAS/IFRS first adoption reserve amounted to 44.384 mln euro at 30 June 2010.

**Other IAS/IFRS reserves**

This includes the values arising from application of the criterion prescribed for cash flow hedging of 0.167 mln euro.

**Foreign currency translation reserve**

This reserve, of 2.68 mln euro is used to record the exchange differences deriving from the conversion into euros of the financial statements of foreign subsidiaries.

## Interim Financial Report at 30 June 2010

The change to the reserve (negative for 11.71 mln euros as of 31 December 2009 and negative for 2.68 mln euros as of 30 June 2010) particularly derives from the great changes recorded during the period of the Argentinean Peso, the Chinese Renminbi and the Indian Rupee.

### Financial liabilities (Note 16)

On 13 April 2010, a **framework agreement** was signed regarding renegotiating maturities and terms and conditions of contracts existing with financing banks for some Group company financial loans at the reference date of 31 December 2009. The agreement shall be valid until 31 December 2012.

Specifically, this agreement sets forth the concession of a waiver on the December 31, 2009 financial covenants and a redefinition of the same for future years, the resetting of maturities for the repayment of portions of the principal on current medium- and long-term loans with 2010 and 2011 maturities, extending them by two years over the original amortisation schedules, the confirmation of revolving line (RCF) availability for an amount of 50 million euro, the maintenance, upon a comprehensive reduction of 47 million euro, of short-term lines of credit during the term of the agreement, and the right to distribute dividends subject to compliance with specific financial covenants. These conditions were agreed upon with the credit institutes against payment of an upfront fee and the increase of spreads correlated with interest rates up to a maximum of 200 bps (basis points).

As forecast, the net financial position grows, going from 241,057 million euros as of 31 December 2009 to 279,299 euros as of 30 June 2010 (278,590 euros as of 31 March 2010). This is mainly due to the purchase of the minority share (33%) in the company Elettronica Santerno SpA, the re-absorption of the suppliers manoeuvre implemented in 2009 and the moderate increase in working capital due to a return to volumes.

For better understanding, the following is a classification of financial liabilities as of 30 June 2010 and 31 December 2009. We would remind you that the figures as of 31 December 2009 consider the reclassification, amounting to 109.11 mln euros, from medium/long to short-term, as envisaged by IAS 1, paragraph 74.

<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2009</b>

Cash	-219 -219	
Bank current accounts and deposits	-42,531 -54,492	
<b>Cash and cash equivalents:</b>	<b>-42,750 -5</b>	<b>4,711</b>
<b>Net financial position</b>	<b>279,299 241,</b>	<b>057</b>
of which payables / (receivables):		
- non-current	<b>173,626 25,799</b>	
- current	<b>105,673 215,258</b>	

The group has available short term banking credit facilities for a total of 138.56 mln euro, sued for 1 00.96 mln euro. These facilities may be used for current account overdrafts and short-term loans.

Medium and long-term bank credit facilities amount to a total of 272.37 mln euros, as compared with use for 222.97 mln euros (medium/long-term portion and portion due within the year).

A significant share of the above-described facilities is included in the agreement signed on 13th April 2010 between the Carraro Group and the main Financing Banks (Framework Agreement).

This Framework Agreement ensures medium and long-term bank overdrafts for 239.68 mln euro.

It also specifically envisages the concession of a waiver of covenants of 31 December 2009 and their redefinition for future years, the re-scheduling of repayment of the capital share of the current medium and long-term loans for expiries of 2010 and 2011, postponing them for two years as compared with the original repayment plans and confirming availability of the revolving line (RCF) for an amount of 50.00 mln euro.

It also ensures short-term banking facilities for 95.12 mln euro, after a total reduction of 47.00 mln euro, which will be renewed on an annual basis, for the entire duration of the Framework Agreement, should the financial parameters defined by the agreement be respected.

### Fair Value

The fair value of medium/long-term financial liabilities, taking account of the fact that these are almost exclusively for variable-rate funding and that the terms being renegotiated with the banking counterparties are in line with the average levels for the market and the segment – even considering the residual volatility of the markets and the relative uncertainty in identifying “reference” conditions – as measured is not significantly different overall from the carrying amounts.

### Management of capital

The Group's main management objective is to ensure that a sound credit rating is maintained, together with adequate levels of the capital indicators so as to support its activities and maximise value for the shareholders.

The Group manages and modifies the capital structure in line with changes in the economic conditions. To maintain or change the capital structure, the Group can adjust the dividends paid to the shareholders, redeem the capital or issue new shares.

Particular attention is paid to the level of debt in relation to net equity and EBITDA, thereby pursuing the objectives of profitability and the generation of cash for the Group business.

**Trade payables and other payables** (Note 17)

<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2</b>	<b>009</b>
<b>NON-CURRENT TRADE PAYABLES</b>		<b>125</b>	<b>-</b>

<b>TRADE AND OTHER PAYABLES</b>		<b>264,285</b>	<b>195,180</b>

Other payables as of 31 December 2009 included the price for the purchase option of the remaining 33% of Elettronica Santerno by Carraro S.p.A., exercised on 31 March 2010 for an amount of 18 million euros.

**Liabilities for current taxes** (Note 18)

<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2009</b>
Current taxes payable	6,240	5,430
Substitute tax payable pursuant to Law 266/2005	798	798
<b>Current taxes payable</b>	<b>7,038</b>	<b>6,228</b>

**Employee severance indemnities and retirement benefits (employee benefits)** (Note 19)

<b>EMPLOYEE SEVERANCE INDEMNITIES</b>			
<i>(amounts in euro thousands)</i>	<b>30.06.2010</b>	<b>31.12.2</b>	<b>009</b>
<b>Opening severance indemnities in accordance with IAS 19</b>	<b>16,615</b>		<b>18,755</b>
Changes	-1,718		-2,140
<b>Closing severance indemnities in accordance with IAS 19</b>	<b>14,897</b>		<b>16,615</b>

Employee severance indemnities with reference to the employees of the Italian companies, are calculated according to current provisions of law and booked as a defined performance benefit. As such, they are recalculated every period end according to a statistical-actuarial criterion that also considers the effects of financial discounting, as envisaged by IAS 19. The change to the liability stated between one period end and the previous is recorded in full on the income statement and classified as personnel costs.

**Pension/retirement funds**

Pension and similar funds for 5.060 mln euros (4.961 mln euros as of 31 December 2009) relate to the liabilities recognised in the accounts of the company O&K Antriebsstechnik; the actuarial recalculation, except for the structural differences of the relevant plans, follows the same criterion described for the Italian termination benefit provisions.

**Number of employees**

The number of employees refers only to the fully consolidated companies and is divided into categories:

<b>Employees</b>	<b>30.06.2010</b>	<b>31.12.2009</b>	<b>30.06.2009</b>
Executives	57	66	80
Clerical staff	945	1,007	1,068
Factory workers	2,662	2,458	2,514
Temporary workers	177	81	28
<b>Total at 31.12</b>	<b>3,841</b>	<b>3,612</b>	<b>3,690</b>

**Provisions for risks and liabilities** (Note 20)

The item can be broken down as follows:

<i>(amounts in euro thousands)</i>	<b>Provisions 31.12.2009</b>	<b>Increases 1<sup>st</sup> half 2010</b>	<b>Decreases 1<sup>st</sup> half 2010</b>	<b>Reclassification 1<sup>st</sup> half 2010</b>	<b>Liabilities held for sale</b>	<b>Exchange- rate adjustments</b>	<b>Provisions 30.06.2010</b>
<b>Non-current portion</b>							
1) WARRANTY	655	70	-43	-	-	25	707

<b>TOTAL</b>	<b>6,080</b>	<b>3,628</b>	<b>3,580</b>	<b>3,284</b>	<b>843</b>	<b>2,001</b>

In order to facilitate a process of re-employment of personnel made redundant, in alternative to the immediate start of a mobility procedure, in Italy the Group opted for the use of Cassa Integrazione Guadagni Straordinaria (CIGS - the Extraordinary Redundancy Benefit Fund). The agreement, signed in the presence of the Ministry of Employment on 15 December 2009, provides for an initial phase of this procedure for the year 2010 as a result of the "situation of crisis", with the possibility to extend it, after an agreement with both the trade unions – on the basis of the overall situation and the performance of the markets – for a further period of 1 year for "reorganization".

To this end, as of 31st December 2009, in the various Italian companies, restructuring funds were allocated for a total of 7.098 mln euros, used during the first half of 2010 for 1.814 mln euros, as shown in the explanatory table. The amount relative to further individual agreements reached (leaving and pensions) not yet supplied, has been reclassified to payables.

In Germany, in the same way, the company O&K Antriebstechnik has used a similar agreement (Kurzarbeit) was signed to deal with the reduction in the workforce in accordance with the most opportune existing social "shock absorbers". The fund was used for 1.750 mln euros and the remainder for 0.860 euros, in line with the initial allocation.

**7. Commitments and risks**

No significant events occurred as worthy of note.

**8. Transactions with related parties (Note 21)**

The Carraro Group is controlled directly by Finaid S.p.A., which as of 30 June 2010 held 64.9301% of the shares outstanding.

The companies Carraro S.p.A. and Carraro Drive Tech S.p.A. adhere to the tax consolidation of the parent company Finaid S.p.A.. The charges/income deriving from the transfer of the IRES taxable base are booked under current taxes. According to the current regulations of the Tax Consolidation Agreement, Carraro S.p.A. has the right to "relief" for the use of the tax losses of the subsidiary companies by Finaid, other than those belonging to the Carraro Group. This "relief" amounts to 3% of the tax loss of the other companies of the Finaid Consolidation possibly offset with the taxable amounts of Carraro S.p.A. and Carraro Drive Tech S.p.A..

The regulation also provides for a mechanism of priority offsetting of the positive and negative taxable amounts between Carraro SpA and Carraro Drive Tech SpA with respect to offsetting with the other companies of the Finaid Consolidation. The same mechanism is provided for with reference to the non-deductible expenses as an effect of the Thin Cap Rule.

Transactions between Carraro S.p.A. and its subsidiaries, which are related entities of Carraro S.p.A., were eliminated in the consolidated financial statements and are not shown. Details of transactions between the Carraro Group and other related entities, in accordance with IAS 24 and with the Consob requirements, are provided below.

<i>(amounts in euro thousands)</i>	<b>Financial and equity transactions</b>		<b>Economic transactions</b>

**e) Summary of fair values recognised before tax effect according to their accounting treatment**

<i>(amounts in Euro thousands)</i>	Carraro Drive Tech	O&IK	Carraro Argentina	Carraro International	Fon India	Carraro	Turbo Gears	TOTAL GROUP	TOTAL GROUP
								30.06.2010	31.12.2009
<b>Value entered income statement</b>	-8	2	-9	433	-20	226	-14	<b>610</b>	<b>22</b>
<b>Value entered To net equity</b>	-12	-	-	260		583	159	<b>990</b>	<b>4</b>
<b>Total</b>	<b>-20</b>	<b>2</b>	<b>-9</b>	<b>693</b>	<b>-20</b>	<b>809</b>	<b>145</b>	<b>1,600</b>	<b>26</b>

In relation to the positioning in the hierarchy of fair values pursuant to IFRS 7 paragraph 27 the financial instruments described are classifiable as level 2; there were no transfers of level during the period.

The fair values at 30 June 2010 of financial instruments on exchange rates were calculated using the forward exchange rate method.

The counterparties with which the contracts are stipulated are leading national and international banking institutions. The financial instruments on currencies are used, on a basis consistent with the financial risk management policy adopted by the group, to hedge the risks deriving from exchange rate fluctuations and concern sales volumes compared with the budget exchange rate and the collections and payment of short and medium-term receivables and payables with respect to the historical value.

For accounting purposes in relation to contracts hedging sales budgets in foreign currencies effective at the reporting date, it should be noted that for the transactions executed, especially Domestic Currency Swaps, and in accordance with all the conditions provided by the IAS/IFRS standards, hedge accounting was applied with reference to the type of "cash flow hedge". Consequently, the corresponding changes in fair values are reflected in a net equity reserve, net of the tax effect.

**9.2 Derivative financial instruments on interest rates****a) Notional values and fair value**

The table shows the details of the **notional** and **fair values** and other information regarding the various types of derivative contract on interest rates in existence at 30 June 2010; on this date the ongoing contracts involved Carraro International S.A. and Mini Gears S.p.A..

<b>CONTRACT</b>	<b>CURRENCY</b>	<b>EXPIRY</b>	<b>NOTIONAL</b>	<b>NOTIONAL</b>	<b>FAIR</b>	<b>FAIR</b>
			<b>30.06.2010</b>	<b>31.12.2009</b>	<b>VALUE</b>	<b>VALUE</b>

Interest Rate Swap	EUR	29.05.2012	2,656,000	3,324,000	-80,588	-100,927
Interest Rate Swap	EUR	29.05.2012	2,656,000	3,324,000	-80,201	-100,343
Interest Rate Swap EU	EUR	31.03.2013	7,661,870	8,843,744	-334,739	-369,221
Interest Rate Swap	EUR	29.11.2010	5,000,000	5,000,000	-64,762	-122,703
<b>Total derivatives from cash flow hedge</b>			<b>25,941,870</b>	<b>30,463,744</b>	<b>-735,334</b>	<b>-895,336</b>

In relation to the positioning in the hierarchy of fair values pursuant to IFRS 7 paragraph 27 the financial instruments described are classifiable as level 2; there were no transfers of level during the period.

For determination of the fair value of Interest Rate Swaps the discounted cash flow method was applied.

**10. Events subsequent to the reporting date.**

In July 2010, the deed of sale of the holdings relative to the investment held by Siap S.p.A. in STM Srl was stipulated, as explained previously in paragraph 5 'Assets held for sale'.

The Chairman

Mario Carraro

***Certification of the abridged half-yearly financial statements pursuant to article 154-bis, subsection 5 of Legislative Decree 58/1998 (Consolidated Finance Act) and article 81-ter of Consob Regulation no. 11971 of 14 May 1999 as amended.***

**1.** The undersigned Alexander Bossard, Managing Director, and Enrico Gomiero, Manager Responsible for Corporate Financial Reporting of Car raro S.p.A., taking into account also the provisions of Art. 154-bis, paragraphs 3 and 4, of Legislative Decree 58 of 24 February 1998, certify:

- the adequacy in relation to the characteristics of the enterprise; and
- the effective application of the administrative and accounting procedures for preparation of the consolidated condensed interim financial statements during the first half of 2009.

**2.** In this regard no significant aspects emerged which require disclosure.

**3.** We can also certify that:

**3.1** the condensed interim financial statements:

**a)** were prepared in conformity with the applicable international accounting standards endorsed by the European Community under the terms of Regulation (EC) N° 1606/2002 of the European Parliament and Council, of July 19, 2002;

**b)** correspond to the figures in the accounting documents and books;

**c)** give a true and fair picture of the economic, financial and equity position of the Group and of all the companies included in the consolidation;

**3.2** The interim report on operations contains a reliable analysis of the references to important events that occurred in the first six months of the year and their impact on the condensed interim financial statements, together with a description of the main risks and uncertainties for the remaining six months of the year. The interim report on operations also includes a reliable analysis of significant operations with related parties.

Date: 06 August 2010
