PRESS RELEASE

Carraro CVT transmission technology fuels the new Massey Ferguson 3 Speciality Series.

Combining hydrostatic and mechanical expertise to deliver seamless power, efficiency, and comfort for modern farming

Hanover, November 18, 2025 – At Agritechnica 2025 Massey Ferguson introduced the MF 3 Speciality Series - its latest generation of specialised tractors - equipped with the Dyna-VT transmission.

This transaxle - a result of the collaboration between Massey Ferguson and Carraro - combines hydrostatic and mechanical modules in a compact, electronically managed layout. This allows seamless torque modulation, enhanced fuel efficiency, and increased driving comfort in the most demanding terrains.

The MF 3 Speciality Series benefits from Carraro's modular architecture and proprietary ECU compliant with ISO 25119 Functional Safety standards for increased performance, reliability, and safety.

The collaboration between Massey Ferguson and Carraro highlights a strategic alignment in delivering an inclusive range of solutions to meet the specific needs of all types of farmers in different kinds of working environments.

About Carraro Group

Carraro (www.carraro.com) is a leading international Group in transmission systems for off-highway vehicles and specialized tractors. The Group's activities are divided into two Business Areas:

- Transmission systems (axles and transmissions) and components mainly for agricultural and construction equipment; gears for very diverse sectors, from the automotive industry to material handling, agricultural applications and construction equipment.

- Specialized tractors (for vineyards and orchards) and Utility between 60 and 135 HP for third-party brands and engineering services for the design of innovative tractor ranges.

The Group has its headquarters in Campodarsego (Padua). As at 30.06.2025, the Group had 3,752 employees – of which 1,686 based in Italy – and has manufacturing facilities in Italy (4), India, China and Argentina.

About Massey Ferguson

Massey Ferguson (www.masseyferguson.com) is a globally recognized brand in agricultural machinery, part of the AGCO Group. Founded in 1953 through the merger of Massey-Harris (Canada) and Ferguson Company (Ireland), it quickly became a pioneer in tractor technology. The company introduced innovations such as the three-point hitch system, which revolutionized farming practices. Today, Massey Ferguson offers a wide range of products including tractors, combine harvesters, balers, and material handling equipment, serving farmers worldwide with a reputation for straightforward, dependable, and farmer-first solutions. Its iconic Triple Triangle logo, introduced in 1958, symbolizes trust and partnership with farmers. Headquartered in Beauvais, France, Massey Ferguson continues to focus on sustainability, precision farming, and smart technology to make agriculture more efficient and profitable.
